The committee met to discuss waterfront recommendations for the upcoming Summer 2020 season. Recommendations to be presented at the April Overseers meeting include:

1. Invite individuals to continue to use the waterfront in accordance with CDC and State of Maine guidelines. Require individuals to bring their own equipment and take it with them when finished.
2. Install the two boat floats, as planned, late in May.
3. Within 2-weeks of proposed float installation, the WSC will recommend appropriate guidelines for the safe use of the boat floats in accordance with CDC and State of Maine guidelines.
